

More Safe, More Productive, More InfraStructure Friendly & lower emissions than its competitors

Tested by the National Research Council for its advanced vehicle stability – exceeds by a large margin international benchmarks for vehicle stability.

Freightliner 2004 Century Cab with 2004 FIBA Canning alum trailers; Meritor 12 speed automatic transmission; Mercedes MBE435 engine (435 HP); Dromedary tank: 11,000 litres; Trailer: 17,000 / 17,000 / 17,000 litres; Total capacity – 62,000 litres; Tare weight (tractor & trailer combined): 37,000 lbs. Payload app. 102,000 lbs. Grandfathered under the Ontario SPIF program to at least 2024.

7 to 9 MPG average fuel mileage. Kilometres: 883,000. Grandfathered under the Ontario SPIF program to at least 2024.

Price: \$115,000 with VIPK, certified. 5 year tank warranty.

Included Features:

1. Galvanized suspension
2. Alum cab, tanks, trailer frame, special corrosion resistance treatment in areas of dissimilar metals with Duralac
3. Center of gravity – as tested by National Research Council app. 33% better than typical B-train and best in its class. (Exceeds proposed international standards for vehicle stability by a considerable margin).
4. Alcoa aluminum wheels
5. Michelin X One XTA or XD-HT 445/50R22.5 tires
6. Cross Fire tire gauges – displays tire inflation at a glance
7. Brake Stroke indicators (I think we have an on dash display for brake stroke alignment too but would have to confirm that).
8. “Wheel Check” on wheels to indicate problems with wheel nuts and bearings
9. Pioneer CD player/FM sound system
10. Biodiesel powered from Day 1 of vehicle life
- 11. Air ride on all axles, including tractor steer axle**
12. ABS on all axles
13. Softest suspension in the industry
14. Immediate response leveling valves (respond within a fraction of a second to compensate air in system to help avoid rollover).

15. Alum wrap around fenders with skirting and interior "turf" and extra mud flaps to reduce road spray significantly
16. 20,000 lb Front Axle with air ride to enhance driver handling and ride.
17. Synthetic lube and transmission fluid
18. Best fuel efficiency in its class.
19. Excellent traction and braking in all seasons.
20. Lowest emissions in its class.
